To brief on overall system architecture, to address risks and technology assessment, and to propose milestones in a Gantt chart

4. Meeting Notes, Decisions, Issues

The system architecture and its associated technologies have been discussed and agreed upon.

Each team member was reminded of their parts and possible modifications. The usage of GitHub and its project board was proposed. The milestones per week were semi-permanently set, with a possibility of change in the future. The team made sure that meetings must be attended to mitigate underdelivery.
